## BOSTON CLOTHING AND FURNISHINGS - HOUSE.

Three weeks of our Cost Price Sale have gone by, with unexpected and unprecedented success. Our own customers and the strangers who have dealt with us are perfectly satisfied that we have carried out to the letter what we advertised.

Now we are going to stop expensive advertising and give our patrons the benefit of the money thus saved by cutting prices even closer where we can, for the remaining 3 weeks of the Sale.

Hats will be cleared regardless of cost. Clothing, of some lines, at less than cost, but not all. Wholesale price is a very good figure on most articles of clothing.

Small stock of summer shirts &c at your own price.

Don't fail to SEE what we are doing at any rate.

### Business Done by Brandon's Implement Firms and Carriage Dealers.

The business done by the firms in this line amounts to the enormous sum of \$379,105. The figures are for implements, buggies, carriages, etc., actually bought in Brandon.

The Sylvester Manufacturing Co.'s head office is in this city and they have most courteously given the figures of their sales in the province amounting to \$194,500, in addition to their actual Brandon sales. This sum may fairly be put to Brandon's business credit swelling the figures to no less a sum than \$573,605.

The very large number of buggies, and carriages that have been sold, speaks conclusively, to the prosperity of the farmers in the neighborhood of Brandon. No less than 400 carriages, buggies and buckboards have been sold in this city amounting to \$42,470. This enormous sale of what may be fairly called a luxury proves without a shadow of doubt the continued success of the Manitoba farmer and the ever increasing business prosperity of the City of Brandon.

The following are the figures which were most kindly given by the undermentioned firms.

Messrs. Smith & Sherriff say that though up to the present time their sales have been very large, yet they expect to sell more threshers etc., in the next month or so than they have done heretofore this season, therefore they prefer giving their figures later.

### A MILE IN 2.05 AND A QUARTER.

Independence, Ia., Aug. 31.—Nancy Doble to-day on Independence's famous hilt shaped track, showed two rounds from the world's trotting record, made by herself at Chicago three weeks ago. All conditions were favorable during the afternoon. She was given two warning up sales and at 5.15 o'clock her great driver, Doble, brought her out for the trial. On entering the second time Doble nodded to the judges, the word was given, and with two running horses at her heels, Nancy went away on her mission with her smooth, easy, perfect and matchless gait. She trotted a quarter in thirty seconds, turning the half in 1.01, without a misstep. Then she began her grand race home. Without a wobble and with a perfect swing she shot past the three-quarters pole in 1.34. The runners were then brought up close, Doble loosed the mare's head and encouraged her with his voice, and Nancy without a falter, shot under the wire in 2.05. The great assemblage burst into cheers and the enthusiastic crowd lifted Doble from his sulky and showered congratulations upon him. Others caressed the famous mare as she was led from the track.

### A VISIT TO THE LUNATIC ASYLUM.

Last Monday I paid a visit to the Lunatic Asylum as a reporter for the "Mail."

Dr. Bell, the gentleman in charge, most kindly showed me over the building and also gave me a large amount of information.

At the present time there are 54 patients, 29 men and 25 women. Some of the unfortunate would appear perfectly sane to a stranger, for as I walked through a portion of the farm (which at present consists of 65 acres) I saw many men busily engaged in farm work. All appeared to be working in the ordinary way, but what surprised me most was the large number of hands that were employed there. These, Dr. Bell afterward informed me, were all under the vigilant eye of a keeper, all lunatics and at times dangerous ones.

The whole of the farm work is done by the patients. One man was driving a yoke of oxen, another was cutting a fine crop of Indian corn which is to be made into ensilage. Several were at work thinning and weeding carrots, beetroots, turnips, etc., whilst some were stooking grain. The Dr. informed me that though no patient is made to work, yet he considers it a great cure and that by humoring them, he could generally get them to do what he wished.

Such things as we have all read of as strips waistcoats, etc., are utterly ignored. No garment of restraint is used, with the exception of Dr. Tracott's protection sheet which is only used when a surgical operation is about to be performed.

The women, of course, have a private ward. There some of them are engaged sewing. One old lady of nearly 70 years of age, I was introduced to by the Dr. She was engaged in this manner and appeared perfectly rational, yet at times she is quite unmanageable. A large number of women were out in the exercise ground, a plot surrounded by a high palisade. Here they walked about with a great deal of gesticulation, all appeared happy.

Amongst the amusement in the building is a billiard table, and the Dr. says some of the inmates are first class players and that it is a great source of enjoyment.

It is the intention of the officials, as soon as the new building is completed, to have some portion of the grounds laid out as tennis courts, croquet lawns, skating rink and cricket grounds.

Service is held every Sunday by a clergyman of some denomination from Brandon.

In regard to this very and disease Dr. Bell says that an acute mania can generally be cured if taken in time, but should it be two or three years old it is very difficult and will probably become chronic. One with a fixed delusion is excessively hard to succeed with. The loss of memory is one of the first signs of the approaching disease, the peculiar shiftless look of the eye another.

The position of the Asylum is, I am certain, unequalled by any public building in the province. The view from the top would, I feel certain, make the most skeptical into the most enthusiastic Manitoban, for as far as the eye can see to the north, northwest and northeast are the great grain fields of Manitoba, whilst to the south is a view of the city of Brandon, the Brandon Hills and the farming country to the east and west of them, the whole giving a view of an agricultural country hard to equal the world over.

The present Asylum is the old "Reformatory," the addition that is being made to it at a cost of \$50,000, when finished will become the central building, and then the Dr. expects 50 patients from Selkirk. This addition will be 120 feet frontage by 90 feet deep, four stories, all heated with hot air, electric lights and in fact, all the modern improvements making one of the most imposing buildings in the province, both from its situation and appearance.

The Dr., I feel sure, is the "right man in the right place," and that all the inmates are treated with the greatest kindness; no one can have any doubt of it if they pay the asylum a visit and see the "man in charge."

## BRANDON'S BUILDING BOOM.

The buildings that have already been put up and those in course of erection this year amount to, no less a sum than \$414,500. From enquiries made structures to be built before Christmas in addition to this, amount to the value of \$30,000 at least, making for buildings alone the grand total for 1892 of \$444,500. Besides this large sum, the corporations are expending on improvements in the way of water works and sewers \$155,000.

The Brandon Contractors who take the lead in buildings, are Ball Bros., with a total of \$101,300, closely followed by Cope & Co., with \$99,000, Miller & Patterson. These firms have jointly built the larger half of the buildings put up to date. Amongst the smaller contractors the names of Harrington & Co., Kelly & Co., and others appear. The following is a list of the houses and blocks, the streets they are on and the contractors and architects names wherever they could be obtained.

Bravest Deed of a Year.

How a Royal Marine Officer Secured the Stanhope Gold Medal.

Lieut. W.B. Huddleston, Royal Indian Marine, has just been presented by Capt. Hext, C.E.I., Bombay, in the presence of all the marine officers in port, with the Stanhope medal for the most meritorious act in saving life in the previous year. The circumstances under which this act was done, were as follows:

In December, 1890, the Marine Survey steamer Investigator was engaged in travelling, in 1,800 fathoms, in the Bay of Bengal. The officers and most of the ship's company happened at the time to be at breakfast, and Mr. Huddleston and the gunner of the ship, Mr. Preston, along with

A FEW LASCARS OF THE WATCH, were looking after the trawl. As the ship drifted with the trawl down, three large sharks appeared, swimming round the ship on the lookout for anything that might be thrown overboard. In those circumstances it is the custom (not exclusively, perhaps, for the benefit of the naturalist's department) to put out the shark line, and accordingly the gunner baited the shark hook and shot it overboard. It was almost immediately gorged and one of the sharks was held fast. It is no easy matter to haul on board a struggling shark weighing several hundred weights, and so the gunner, in accordance with tradition, brought forward a loaded rifle to shoot the unmanageable beast with. But in the excitement of the moment and in his anxiety to get as close as possible the eager marksman fell overboard. By virtue of that curious paradox commonly illustrated by sailors and fishermen the man could not swim; but what was worse was that there were the other sharks close by, attracted by the splashing of

THEIR CAPTURED MATE. Without waiting to put off his coat or kick off his shoes Mr. Huddleston at once jumped overboard to the rescue, and it was not until he had got hold of the gunner and had seen him safely landed on board that he began to think of himself escaping immediate danger. One of the sharks was already smelling at the brave young officer's cap, which had fallen off and was drifting slowly away. This act of devotion was brought to the notice of the authorities by the commander of the Investigator, the late Capt. Hosken, and was by them reported to the Royal Humane Society; and Mr. Huddleston, in May last year, received the silver medal of the society, pro vice servato. The act has been singled out from the several hundred acts of bravery recognized by the society for the

highest honor that the society can confer, and Mr. Huddleston is now decorated with the Stanhope Gold Medal, the first to be worn by an officer of the Indian Marine.

## A MOST TERRIBLE ACCIDENT.

An Awful Uncertainty as to the Fate of 150 Miners Who Are Locked In.

London, Aug. 26.—A fearful mining accident occurred this morning at the Parkalip coal pit, near Bridge End, a mining town in Glamorganshire, Wales. The day shift of miners had not been long in the mine before a most terrible explosion was heard. The day shift comprised 150 men. The relatives and friends rushed to the pit's mouth to learn the extent of the disaster. The explosion had caused the earth and rock to fall and the mouth of the pit was closed. Not a single man in the mine had made his escape. It is feared there has been a great loss of life. Hundreds of miners in the vicinity have volunteered their services and the work of clearing the pit's mouth is being pushed as fast as circumstances will permit. All around the pit are gathered women and children hoping for the best, yet expecting the worst. Mine officials hold out all hope possible, but it can easily be seen that they fail to make the mothers and wives believe there is much hope.

## MORDEN ELECTION PETITION.

Preliminary Objections Filed on Behalf of Mr. Roblin.

Preliminary objections were filed in the prothonotary's office on Saturday on behalf of Mr. R. P. Roblin against the petition presented against him for disqualification. Amongst the objections filed is contained that Mr. Roblin was improperly served with the petition, he not being named therein as a respondent; that the petition will not lie against said R. P. Roblin, nor ought any further proceedings to be taken thereon as against him, because he says there is no statutory or other authorities for filing or proceeding upon an election petition in respect of the matter complained of in said petition against a person not returned as elected; that it is not shown by said petition that said R. P. Roblin was returned as elected; that notice of filing said petition has not been published pursuant to statute, nor has the same been dispensed with pursuant to law; and that the petition is endorsed as presented by the petitioner and by his attorney and agent, C. P. Wilson, which does not comply with the statute. These objections will be brought on for argument before a judge shortly.

## "German Syrup"

A Throat and Lung Specialty.

Those who have not used Boschee's German Syrup for some severe and chronic trouble of the Throat and Lungs can hardly appreciate what a truly wonderful medicine it is. The delicious sensations of healing, easing, clearing, strength-gathering and recovering are unknown joys. For German Syrup we do not ask easy cases. Sugar and water may smooth a throat or stop a cough—for a while. This is as far as the ordinary cough medicine goes. Boschee's German Syrup is a discovery, a great Throat and Lung Specialty. Where for years there have been sensitiveness, pain, coughing, spitting, hemorrhage, voice failure, weakness, slipping down, where doctors and medicine men have failed, have been swallowed and spit out, to the gulf of despair, where the sickening conviction that all is over and the end is in sight, there we place German Syrup. You are a live man yet if you take it.

## BRANDON MAIL.

THURSDAY, SEPTEMBER 8, 1902.

### GREENWAY'S IMMIGRATION.

If ever there was a necessity for an able Opposition in the House at Winnipeg it is now, and that Opposition is not there. Many of the Opposition candidates elected are good men in their own business and under good training and diligent, capable leadership in the House, would, no doubt, develop into capable men; but the same results cannot be looked for from their bar without capable leadership. The Government, too, are unscrupulous, and from the system of account compilation they are pursuing, fraud and deception contemplated are apparent on every hand. In the late contest, for instance, every nerve was strained to show the public, in comparison with the Norway Government, they are economical and capable. Great stress was laid on the two items of "printing" and "immigration" to prove what they intended for—to show their printing bill was light and their immigration expenditure heavy. The Government, it was felt, could show they ran the country's business on a light printing bill and put their "savings" into immigration were "the men for Galway." We will for a few moments ask the attention of our readers while we dissect this kettle of fish. Let it here be remembered the Norway Government always called their spades spades, and they detailed all their printing bills under the proper head of printing, so that the item if it was large had at least the merit of being correct. The present incumbents have taken a new departure, and have charged almost everything conceivable under the head of immigration to swell the item in the country's benefit. Let us examine the \$18, 019 spent on immigration in 1891, and how it is made up. The first is \$400 for ice, and considering the heated zeal of the Government to show well under this heading, this item, we presume, is pardonable. Next we find \$5,432.42, or nearly the one third of the total paid, in what would you suppose—in printing and advertising? And would you suppose W. C. White, of the Brandon Sun, got nearly one half of that, or \$2,504.25. Now to be honest, this \$5,432.42 should have been charged to the printing account, as the Norway Government would have charged it, and deduct the amount from the immigration account which would have left a balance of \$12,587. Again, of this latter amount we find paid for salaries and perquisites as follows:

Hugh McKeller	\$ 813.22
Alex. Smith	969.90
W. H. Paulson	337.50
A. J. McMillan	2,711.63
W. D. Scott	972.34
Robt. Nelson	307.80
Rev. H. J. Brathwick	700.00
W. M. Cushing	137.28
J. G. Gage	144.45
T. W. Greenway	149.35
Thos. Greenway (travelling exp.)	973.00
A. K. Leith	102.60
John McKay	630.00
Wm. Robertson	157.75
C. T. Whillans	500.00

Total salaries and perquisites \$9,556.82. This sum taken from the \$12,587 above would leave a balance of \$3,030.18 spent on immigration and the greater part of this went into the pockets of favorites. Now, a close examination of the Public accounts under all the heads will disclose the unvarnished fact that there is throughout a mixing and muddling of figures such as exists under immigration for the clear purpose of deceiving the people. Whenever it would suit the purposes of the Government for a comparison with the transactions of the late Government, cross entries from account to account are made, and with an inexperienced Opposition, this will be indulged in to a much greater extent the coming parliament than it has been in the past. It is to watch trickery of this kind that good men should be sent to the House.

### SAUCE FOR THE GOOSE.

The quietude of the average Grit, print out a palpable outrage, when its friends are the cause of the outrage, is truly refreshing. It is reported the Hon. Dennis McLean, the defeated of Dennis, is going to get the shriveling at Portage la Prairie as a reward for his defeat, and all the Brandon Sun has to say on the subject is: Mr. McLean is a "gentleman" that will fill the position in an acceptable manner. He is deserving of it at the hands of the Government and it would be an appointment to which exception could not be taken by anyone. The Greenwayites of the Portage then must be a submissive lot of spaniels, if they submit to Watson's sale of their rights in this way. If this is the payment Watson has to make for the Portfolio and the "Honorable" thrown in, to Greenway & Co., it is well the public should know it. We have to ask our confederate if it would speak as complacently for a seat in the Cabinet at Ottawa, Mr. Daly for instance, were to give the Brandon post office, if the office were vacant, to Mr. Ed. Macdonald, of Portage la

Prairie? Would not the Sun declare and very properly it was a direct snub to intelligence of the entire constituency of Selkirk? We are convinced it would, but there is no accounting for the exigencies of a Grit print, when the exigencies of its party are at stake, especially if it is itself bleeding the treasury at the time to the tune of \$2,500 a year, as the Brandon Sun is.

### WHEATLES LOGIC.

That Petersonian Chap on 12th street has often and often been told it is dangerous for men who live in glass houses to fling stones and he will still continue to fling them. In speaking of the probability of Sir John Thompson succeeding Sir John Abbott as Premier of Canada, the Chap with the glass eye says: "He is known to be a rank anti Protestant, and in Canada it is rapidly resolving itself into this: Shall the Roman Catholic element continue its dominating influence or not? If it is intended that they shall occupy no more prominent place in the guidance of public affairs than Protestants, it is necessary that some check should be placed upon their encroachments now." All this mind, innocent reader, from a print that has done its best for the past four years, and is doing its best now to make the Hon. Wilfred Laurier, a man who is well known to be a strongly pronounced Roman Catholic premier of the Dominion. It will never do to place a Conservative Catholic in high position, as that would be giving the Catholics too much power, but it is all right to make a Grit Roman Catholic premier, as that is minimising their power. Did ever mortal read such stuff and still there are Grits reading the Sun every week no doubt that think this is the pure unadulterated gospel because it is administered by Mr. A. M. Peterson. What think ye of the scribes and pharisees?

They have a very big tempest in a very small teapot up at Regina these times. A few days ago what was known as the Houltain "government" was upset on a vote of want of confidence, and Mr. Cayley of Calgary, has formed a new administration. There are 24 members in the House and each leader has 12, so that practically neither party is able to select a speaker, and go on with the business. The objections to the Houltain government on the surface are, that he Houltain, did not give proper representation to all sections of the country, in his Cabinet; that he did not consult his colleagues; that he did not get business in proper shape for the session; and that his financial policy was weak. The upshot is that Cayley is likely to appeal to the people, and if politics are introduced, as they are likely to be, he will carry the country.

### PROVINCIAL.

Thirteen grain buyers will be stationed at Carberry next month. Surely the old ring will be broken and keen competition enliven trade. F. L. Burns and W. Jardine are already on the ground.

Mr. W. T. Thompson, D.L.S., who for some time has been engaged in the work of subdividing a large tract of land on the Old Piapot Reserve, has completed the work. The land to be thrown open for settlement is well adapted to stock raising and mixed farming.

On Saturday night a four-year-old son of Mr. Malcolm Turfitt, of Rapid City, expired after an attack of bronchitis lasting only a couple of days. Much sympathy is felt for the parents in the unexpected trial which has befallen them. The child was buried on Sunday.

Made's livery and feed stables at Manitou was burned at 9 o'clock Tuesday night. The horses and buggies were all removed, but all other contents were lost. The fire was caused by the explosion of a lantern. Loss \$1,500; insured for \$500.

At a meeting held at Carberry on Monday for the purpose of establishing a newspaper in the interests of the Conservative party of Norfolk, over \$2,000 in stock was subscribed and a strong committee appointed to complete arrangements for carrying out the same.

The application for a license for the Victoria House, Virden, was refused at the sitting of the Commissioners at Brandon on Friday last on the ground that the applicant was not in actual possession of the house. Mr. A. Patterson supported the claims of the applicant and Mr. Blackburn the temperance protest before the Commissioners.

The following from the Walkerton Telegram refers to Mr. T. R. Todd, the popular clerk of Woodworth municipality: "Mr. and Mrs. Todd left yesterday for their home in Manitoba. Mr. Todd's long sojourn here was occasioned by his wife's illness, but we are glad to be able to say that her health is now quiet restored, and that she left for her western home, both in good health and good spirits. Harvest being on there, T. R. Todd had plenty of work awaiting his arrival."

Regina, Sept. 3.—The case brought by Daniel Mowat, M.L.A., also a member of the Territorial Executive Council, against William Sutherland, M.L.A., was finished to-day. He was tried before G. H. LeJeune, J.P., Mr. Sutherland was committed for trial. Mr. Mowat has also entered a civil action against Mr. F. W. G. Haultain for defamation of character, claiming damages at \$5,000.

Mr. Edward F. Head, of the firm of Head & Bossons, architects and contrac-

tors, of Portage la Prairie, has contracted in the name of the firm for the erection of two farmers' grain elevators in this municipality, one here and the other at Sintulata, each to have a capacity of 30,000 bushels, at a total cost of \$14,000.

At an inquest held on Friday and Saturday touching the death of Robert Weisgerber, who was killed on the C. P. R. track, Qu'Appell, on the previous Sunday, the jury returned a verdict as follows: That the deceased came to his death accidentally on the 21st of August through being run over by a freight train on the line of the C. P. R., and that the jury exonerates the train men from all blame in the matter.

What touched the lowest point in England last month that it has reached within the present century, with the single exception of June 1880. On the 10th of July, the average price in British country markets was 29s 1d per quarter, which is the lowest price as stated above. With the exception of June, 1889, we have to go back over 139 years to find a lower quotation.

The Virden correspondent to the Free Press says: James C. McDougall, son of Wm. McDougall, sr., who lives north of the town, had rather an exciting time the other day with two wolves. He was taking hay in a ravine when three wolves attacked his dog. He ran at them with his whip and one of the wolves tore the arm off his shirt and ripped off one of his pant legs in the struggle. He escaped with only a few scratches.

A shocking accident occurred in Regina last Monday evening whereby a man named Elijah A. Fisher lost his life. He had been engaged repairing pipes in a tunnel connected with a well on the premises of the Bank of Montreal, and had signalled his assistant to draw up his charcoal stove and tools, and was preparing to ascend himself, when the assistant heard a noise as of a man snoring, then heard the fall and the splash in the water. Alarm was immediately given, but half an hour elapsed before the body was recovered. It is supposed the deceased was overcome by the character of the fumes. Mr. Fisher was a brother of Mrs. Jno. F. Mowat. He leaves a widow and two children, for whom universal sympathy is felt.

Owing to there being no quorum at the meeting of the City Council last Monday night the agreement submitted by the C. P. R. restoration could not be discussed. The C. P. R. authorities claim that they can close 9th street, and the city solicitor is of the opinion that the city has no rights except those by occupation and consent. At the meeting on Saturday the following proposals were partially agreed to, if submitted in writing by the C. P. R.: a permanent crossing on 3rd st.; a crossing between 13th and 14th sts. (the railway authorities do not guarantee to be permanent) also a permit to build an overhead or under way crossing between 3rd and 18th streets. The city would then consent to the closing of 9th street.

### NEW MANITOBA WHEAT.

The First Sample is Shown on Toronto 'Change and Vote-Choice.

Toronto World.—Local grain dealers have been awaiting with a good deal of interest the arrival of the first sample of Manitoba new wheat. Those of them who yesterday morning were on "change" had their curiosity gratified, for spread out on the "cellars" table in neat little boxes were four samples of the wheat upon which they had desired to set their eyes. The old experts came and saw, handled and tasted the samples and voted them of choice quality. The wheat graded, according to last year's standard, Nos. 1 hard and 1 Northern, and were taken from a lot of 10,000 grown on one farm. The grain was harvested 14 to 15 days from seedling to "This sample," said Mr. Wm. Stark, by whom the samples were shown, pointing to the grain which had reached maturity in 94 days, "is the best. It is the hardest and worth the most money, while that which took the longest period is the softer and worth the least money."

### CRIMINAL LIBEL SUIT.

The Result of a Charge of Attempted Bribery Against a Member of the N. W. Executive.

Regina, Sept. 2.—The latest development in the Legislative Assembly trouble is a suit for criminal libel brought by Daniel Mowat, a member of the Cayley executive, against Wm. Sutherland, member for Fort Qu'Appell. Sutherland made a direct charge that Mowat attempted to bribe him by offering to have \$250 placed in the estimates as his salary as deputy speaker if he, Sutherland, would support and vote for Cayley's party.

Mowat stoutly denies the charge and has summons issued last night against Sutherland for criminal libel.

The preliminary hearing commenced this afternoon before Henry LeJume, J. P. Haultain & Johnston are counsel for the defendant and Scott & Hamilton for the plaintiff.

Haultain, Oliver, Neff and Tweed were examined but no direct evidence was brought out. All witnesses except Haultain denied having seen Sutherland's alleged charge.

Haultain refused to answer Scott's question on the grounds that he was Sutherland's advocate.

The court adjourned until to-morrow morning in order that the authorities might be looked up.

### ROUNTHWAITE.

Harvest is in full swing here; about three-fourths of the wheat has been cut. Though the crops are rather light they are a good crop.

Threshing will probably start this week. Mr. Searer expects to have his store completed in about two weeks. It will be a handsome building and a great improvement to the town.

There will be two or three dwelling house built here shortly.

### WHAT NO FELLOW CAN FIND OUT.

Four men may eat green fruit with impunity, but a fifth may try the experiment and an hour or so later be tied up in knots with cramps and dizziness. Who the fifth man will be is one of those things no fellow can find out, and consequently all should take time by the forelock, and prepare for such an attack by keeping on hand a bottle of PRATT'S PAIN EXPELLER which is a safe, quick and infallible cure for diarrhoea, cholera, cramps, or, indeed, any disorder of the stomach. This excellent medicine can be bought at any reputable drug-store. 25c will purchase the Big Bottle, New size.

### RHEUMATISM CURED IN A DAY.

South American Rheumatic Cure for Rheumatism and Neuralgia radically cures in from 1 to 3 days. Its action upon the system is remarkable and mysterious. It removes at once the cause and the disease immediately disappears. The first dose greatly benefits. 75 cents. Warmed by N. J. Halpin, Druggist. Sept. 8th, 1902.

### Pipe Smokers.

You may be satisfied with the brands of tobacco you have been using for years. Grant it: that you are satisfied. ## OUR INDUSTRIES.

On Friday last a representative of the "Mail" visited the establishment of Messrs. Laidlaw, Green & Co., this city, and by the enterprising proprietors was shown through the works which are situated on 10th street, a short distance south of Princess avenue.

The main building, situated as above, is used altogether as a finishing shop, and is equipped with as fine a collection of machines as we have ever seen for carrying on that business.

The firm have just purchased and placed in position a new iron shaper, which is in itself a marvel of ingenuity and convenience.

They have also purchased a new general purpose lathe which they are now placing in position.

With these additions to their plant they hope to be better able to keep pace with the growing demand for their work. It is the intention of the firm to, next year, begin the manufacture of new portable engines, also stationary engines for elevators, etc.

Passing from the finishing shop to the boiler shop on the east and adjoining, we find some of the portable engines brought in for repairs, also mill smoke stacks and other work of a similar kind, in course of manufacture.

To the southeast of the main building is the power house in which is placed the steam boiler and engine which are used for driving the machinery.

The country supplied by this firm covers a radius of over 100 miles, but they receive work from points as far away as Moosejaw, Wolsely, etc.

The repairing business of this firm is simply surprising, as many as 75 engines being in their engine yard at a time waiting repairs. They also repair threshing machines, binders, mowers, and do all kinds of machinery work for mills, factories, etc.

From 10 to 15 skilled workmen are employed on the premises and the firm pay about \$200 weekly as wages.

They carry a full line of engineer's tools and iron fittings and general engine supplies.

Altogether this establishment is one which is a very valuable portion of Brandon's Industries.

## NEW C. P. R. PASS THROUGH THE ROCKY MOUNTAINS.

A gentleman who has just returned from a trip into Crow's Nest Pass, in the Rocky Mountains, says Contractors Ross, Mann and Holt are vigorously pushing the grading operations on behalf of the C. P. R. and the narrow gorges of the pass. There are three hundred men at work, and about twenty miles have been graded. The highest point of the pass is a thousand feet lower than the highest point in the present C. P. R. pass. The pass abounds in rich anthracite coal deposits, one of which is being worked. It is believed that the C. P. R. has been quietly pushing the work with a view of preempting the entire pass, which at many points is too narrow for more than one road. The line is laid out to McLeod, where it connects with Calgary and Edmonton; and it is said that the intention of the company is to extend lines due east to connect at Estevan with the new Sault out of now being built from Regina, and running south through the States. This will practically give the C. P. R. another transcontinental line, and an optional route to the east, and as the pass will be much better than Kicking Horse, trade may be largely diverted from the latter.

## MEREDITH AS PREMIER.

### HIS NAME IS MENTIONED.

Abbott Must Drop the Job. Bowell and Foster named.

OTTAWA, Sept. 3.—There is considerable talk over the serious and significant illness of Premier Abbott. The general belief here is that the only available successor is Meredith. There are two men in the cabinet who, it seems, could be mentioned for the leadership—Bowell and Foster. But the mention of their names reveals the necessity of looking outside for an acceptable man. Sir John Thompson declined to form a government when Sir John Macdonald died. Whatever reasons impelled him then to that conclusion would likely still operate in the same direction.

### SIR DONALD DECLINES.

MONTREAL, Sept. 3.—Sir Donald Smith being spoken of as a successor to Premier Abbott, said: "I am too old to risk any such responsibility. I am not ambitious in that direction. I never sought to enter politics of my own free will. There are good men in the government, such as Thompson, who would make a better premier than I ever would." He said that Canadian affairs were coming to the front in England, where every confidence was evinced in the future of the country. He mentioned that the experiment of transporting troops across the continent by the Canadian Pacific had been acknowledged a grand success in England. He will remain here some time.

## A SUCCESSFUL ENTERPRISE.

A little over a year ago, when the Canadian office and factory of the Owen Electric Belt Company was opened at 71 King street west, Toronto, it was thought the accommodation was all that would be required for some years, but so great has been the demand for their goods, and so popular have they become as a healing power that they have been compelled to secure larger and more commodious premises, which they have done at 49 King street west near Bay street. Their new quarters are elegant, fitted and furnished throughout, no expense having been spared to make them the finest of their kind in the Dominion. The business office, reception and consulting rooms, factory, etc., are all on the ground floor and easy of access, with every facility for promptly supplying the greatly increased demand for their goods. The manager, Mr. C. C. Patterson, and his assistants, are always ready and will demonstrate and

to the most skeptical that the Owen Electric Belt does give a continuous current of electricity that may be regulated both in quantity and intensity, and successfully applied to any part of the body for all nervous and rheumatic troubles, even after all other means have failed. A catalogue of valuable information on electricity is given to all persons asking for same.

## LATHING CONTEST.

### A Race Which Created Much Interest. A Big Day's Work.

A very interesting contest was witnessed Saturday at the new board of trade and grain exchange building. The contestants were a Mr. Taylor, of Toronto, and an Icelandic resident of the city. Some dispute had arisen as to which one could put the greater number of laths in a day, and in order to settle it a wager of \$25 a side was made and a contest agreed upon. During the day a large number of people visited the building to watch the race. When time was up it was found that the Icelandic had covered 340 yards, while his opponent had only covered 310 yards. It was a big day's work for two men, and it is safe to say that there are very few men in the business who can equal it.

## C.P.R. ATLANTIC LINE.

### Some Particulars of the Proposed Fast Service Between Canada and England.

MONTREAL, Sept. 2.—It is now pretty well understood that the Canadian Pacific Railway Co. have decided to establish a fast line of Atlantic steamships running to Montreal, and the visit of Messrs. Van Horne and Angus to England is in connection with the scheme. One of the largest shareholders is authority for the statement that the arrangements are nearly perfected. The idea is to get the British government to grant a subsidy and send China and Japan traffic right through by the Canadian Pacific instead of sending it via New York as is done at present.

## CRUISE IN LAKE WINNIPEG.

### REV. E. R. YOUNG RETURNS.

Indians in a Bad Way on the East Side.—Depletion in Fisheries.

Rev. Egerton R. Young, a former resident of this western land, once upon a time engaged upon Indian missionary work, is at present in the city. In late years he has written many interesting works, one of which is now in its fifteenth edition in England, so great has been the demand. Mr. Young has just returned from the scene of labors, dating from 1868, along the shores of Lake Winnipeg. His first field in the year mentioned was at Norway House, the second at Berens' river, first among the Crees and then among the Salteaux. Altogether he was engaged for nine years in mission work, all in Lake Winnipeg. Since then he has been engaged in white work largely in Europe. To a Tribune reporter last evening, Mr. Young said he came to take the 800 mile trip on the lake, from which he has just returned, for the purpose of seeing his old friends, and, if possible, to arrange a large Indian camp meeting. Many people in the east have said that they would like first rate to come west to see such a sight. The C.P.R. has received letters asking if excursion rates can not be arranged. Mr. Young hopes that the scheme will be crystallized into shape and visitors will be given an opportunity of enjoying the breezes of the lake and seeing the sight of the camp meeting. He was very much delighted at meeting many of the old Indian faces, and the Indians were pleased. He took gifts to many of the Indians, was a sort of pleasure to them, and the scenes presented by the intense joy of the Indians was between a circus and a Methodist love feast. Many of the old Indians were gone, but a thriving generation is growing up. There is great temporal prosperity at Fisher River. The saddest place is on the east coast of the lake. The failure in the fishing is attributable to the fishing companies. The remedy suggested is to have the close season begin earlier. An employee of one of the companies stated that he had stood ankle deep in the spawn of the fish in his boat. The matter, Mr. Young thinks, is one requiring governmental inspection, or soon fish in Lake Winnipeg will be as scarce as the buffalo on the plains. While on the lake he met several old Indians who were employed on the Sir John Franklin search. They had many interesting reminiscences. Fur bearing animals are not so plentiful as in the old days, but moose and caribou are as plentiful as ever.

Rev. Mr. Young will occupy the pulpit of Wesley church in the morning; Grace church in the evening; will lecture in Wesley church on Tuesday evening, and leave for the west on Wednesday, crossing the Rockies. It is Mr. Young's intention to visit Australia at an early date.—Winnipeg Tribune.

## POLICE COURT.

At the Police court, on Monday morning before Police Magistrate Todd, two men were charged with being drunk on the streets, they were fined \$3 and costs amounting in all to \$5.50.

Another case was that of a young man being charged with stealing a watch valued at \$3.00. It appears that the parties board at Geo. Baird's. On Saturday the prosecutor met the defendant on the street, when the latter told him he had found a silver watch. On the prosecutor going to his room he missed his watch and at noon on that day saw it in defendant's possession, he said nothing till 6 o'clock, when he told the defendant that the watch was his. The young man at once disowned all ownership, but said "prove it," this proof not being satisfactory to defendant, the prosecutor had him arrested for theft on Saturday night. Magistrate Todd, on hearing the evidence at once acquitted the defendant.

## ATTEMPTED BURGLARY.

A case that caused considerable excitement was one of attempted burglary at the Kelly House, on 6th street. This came up before Justice Todd, Wednesday morning at 10 o'clock. Mr. Newbury proprietor of the Kelly House, had a man, who gave his name to the Chief, as Charles Macdonald, arrested on this charge. It appears that on Saturday the prisoner and a friend were in the hotel, and asked the proprietor for a room, this was refused owing to the place being full, later on in the evening however, the prisoner and his friend secured a room from the clerk, having their names registered as Paddy Hurley and Paddy Hooley. On Monday night about 12 o'clock Mr. Newbury and some other gentlemen were in the sitting room, when the prisoner entered and asked if he could get a drink, this was refused, as it was after hours. He remained in the room trying to enter into conversation, when suddenly there was a crash, the skylight on the second floor over the washroom, was broken. Mr. Newbury, the proprietor, and some other parties rushed to see what was the matter, two men were seen to jump over a gate at the back of the premises, a trunk was found on the roof and one of the men seen running away was recognized as a friend of Mr. Hurley or McDonald. After a number of witnesses were examined by Mr. Macdonald, barrister, and cross-examined by Mr. Henderson (for the prisoner), Mr. Henderson claimed that there was no evidence to convict and the magistrate agreed to this, saying however, it might have been very different had the two other men been captured.

## STORIES OF THE DAY.

It is claimed that the boundary line between Idaho and Washington is thirty miles out of the way, and a resurvey would probably place Spokane in Idaho, increasing the population of that state 75,000.

SELECTMAN S. BYRON BROWNSON, of Andover, Conn., has two remarkable eggs. One measures seven inches around the longest way and the other one and three-fourths inches. Both were laid by the same hen on the same day.

HENRY A. POND, of Bristol, has been visited by many farmers who desired to see his two eggs. They were born of a Jersey mother, and while one is a very diminutive specimen of the Jersey breed, the other is a monstrously large full-marked Holstein.

H. R. MARCEY, of Forsyth, Mont., has the head of a deer that has three irregular horns on each side and nine irregular horns in front, between the two large ones. The side horns are nine inches in length and those in front from one to four inches in length.

A DERRY (Conn.) woman, whose word is not to be doubted, tells the oldest hen story of the season. She put fifteen eggs under her hen and obtain sixteen fine chicks. In the nest, besides, were two eggs that were not hatched, and two more in which dead chicks were found.

## COURT GOSSIP.

It is illegal for boys under sixteen years of age to be in the streets of Sellersburg, Ind., after seven o'clock p. m.

CANOE CITY, Kan., has adopted an ordinance requiring every owner of chickens to keep them on his premises.

FRANCE has made a law imposing the penalty of death on persons convicted of using dynamite for the destruction of buildings.

Is a suit for damages for injuries received while switching the Michigan supreme court has decided that side tracks must be kept in good condition.

THE city council of Elizabeth, N. J., has passed an ordinance forbidding girls under sixteen to attend picnics, balls or other places of amusement, unless "attended by" a parent or guardian.

THE government of the Tyrol has passed a bill imposing heavy fines on persons who may be caught while selling samples of the beautiful and rare Alpine flower called edelweiss, which has been pulled up by the root on the mountains to such an extent that there is danger of the plant becoming extinct.

## Winchester Municipality.

### TENDERS FOR BRIDGE NEAR KAPINKA.

The Council of the Municipality of Winchester invite sealed tenders for the erection of a pile bridge over South River near Kapinka, on the boundary between this Municipality and Municipality of Arthur, on the road allowance between ranges twenty-five and twenty-six west of the principal meridian, between sections thirty and twenty-five, in township four.

Tenders will be received up to 7th day of September next. Plans and specifications can be seen in the office of the Clerk in Deloraine. Each tender must be accompanied by a marked cheque made payable to order of the Municipality of Winchester to the amount of ten per cent. of the contract price, which amount will be forfeited in case of failure to execute a written contract, with approved sureties when called upon so to do.

The lowest tender not necessarily accepted.

W. R. DAVID, Clerk.

### Sad Scenes in Hamburg on Account of the Cholera.

There was a riotous demonstration this afternoon before the house of the president of police. About 100 unemployed laborers from the worst sicken districts gathered there shouting that the authorities wished the people to die and therefore would not help them. The men were driven away by a company of policemen. The air is chilly this evening and a storm from the southwest is breaking.

**SAULT STE. MARIE, Mich., Special, Sept. 4.**—It is reported here that the steamer City of Green Bay foundered near White Fish Point in Tuesday's gale. She carries a crew of twelve. The report reached here by a man named Chester Evans, who said he saw the cabin floating near Groscap. She is owned by Eadross Bros., of White Fish Point, and had been on a trip to Degr River.

London, Aug. 26.—Ten men employed in a coal pit in Swansea were descending in a cage to their work yesterday, when part of the pit roof fell in. The men were caught under the falling earth and rock and seven were crushed to death. Three were rescued, their arms and legs being broken. Their bodies were mutilated in a frightful manner and they sustained internal injuries which will probably cause death.

It is only a little over a week since nine car loads of fat cattle were shipped from this point and now there are eight loading again this week. This speaks well for Yorkton as a grazing country.

The aroma of the tobacco leaf is so completely conserved in the manufacture of "Myrtle Navy," that age has no effect in diminishing it; even after the plug has been kept for years it gives out its full flavor under the combustion in the pipe, mellowed in tone by its age and making the most exquisite smoke which tobacco can be made to give. Age, too, hardens the structure of the plug and gives to the tobacco, when cut, that most granular appearance in which all connoisseurs delight.

Mr. S. R. Smith has received the sad tidings of his father's death at Drayton, Ont., on Sunday morning September 4th. The old gentleman was about 65 years old. He has four children in this country and 12 at home. He will be deeply missed. The family have our deepest sympathy.

Representatives Stebbings, of New York, and Robinson, of Collingwood, passed through the city on Tuesday's express, on their way to attend the meeting of the Sovereign Grand Lodge I. O. O. F., which meets this year at Portland Oregon. Mr. Robinson was accompanied by his daughter. The party return via St. Paul and Chicago.

Ex-Alderman R. T. Riley, of Winnipeg, talking to one of our prominent citizens, who is a property holder in Brandon, expressed himself as being very much surprised at the advance of Rossier avenue property as three years ago he could have purchased a corner lot at \$150 per foot which is now held at \$275, and this is as high as Main street property of Winnipeg. He has great faith in Brandon growing to be a large centre.

Somerville & Co. Brandon Marble and Granite Works, have removed to their new shop between 10th and 15th streets on Rossier avenue, west of McGregor's stables where they can supply Monumental, Headstones, Wood and Slate Mantels in the latest Canadian and American styles. They are also agents for the Drake Mantle and Tile Works of St. Paul Minneapolis. Parties wishing to see those Mantels can do so by calling at Mr. Hesson's, Mr. Merritt's Mr. Smart's, or at Bell Bros. new house. Aug. 25, 4t.

Boston sale still booming.

We are pleased to again see Mr. John Wilson, grainbuyer, on our streets after an absence of several months in Toronto.

Mr. D. F. Wilson has a flock of the prettiest "Brown China" geese in this or any other city.

Alderman R. T. Riley, of Winnipeg, and manager of the W. E. Sanford Mfg. Co. is in the City.

Mr. Cameron, a farmer south of this city, has his brother-in-law from Windsor, Ont., with him for a few days.

Messrs. Thompson, Colville & Co., are closing up their branch wholesale grocery here and moving all to Winnipeg. They claim the cause is the discrimination in freight rates against Brandon occasioned by the afloat of the N. P. R. We will give full particulars in next issue, in the meantime this is the best argument that can be adduced to the falsity of the Grit politician in claiming the advent of the N. P. has been a great benefit to Brandon.

Mr. O. H. Dingman, Provincial Manager of the Covenant Mutual Benefit Association of Galesburg, Illinois, is stopping for a few days at the Lyngham. Mr. Dingman claims to have the best assurance of the kind on the continent. Easy payments, exact knowledge of expense, perfect security and small cost are features all afforded by the C. M. B. A. and all unite to make its policies the most desirable life insurance offered.

A pleasant event took place on the 31st ult., at the residence of the late Mr. John Whyte, brother-in-law of the bride, when Miss Kate Stevens, of Neepawa formerly of St. Mary's, Ont., was married to Mr. John McIntyre, of Neepawa. The happy couple left, amid showers of rice and old shoes, for Brandon thence to their home in Neepawa.

A young man, of the name of Thomas Hall, was charged with vagrancy before Police Magistrate Todd, on Wednesday last. About a month ago this same party was before the justice on a similar charge, but was let off on his promise of leaving town and going to work. He worked for two weeks then returned to Brandon with this result, Justice Todd fined him \$10 or one month's hard labor, he took the latter.

Mr. Trask's funeral, on Wednesday afternoon, was a very large one, about 20 carriages were in attendance. The floral decorations were profuse and a triangle, the emblem of the R. T. of T., was exceedingly beautiful, being composed of red and white flowers, a beautiful wreath from the League, and other contributions. The Rev. Mr. Daniels, of the Methodist church, performed the sad rites. The burial service of the R. T. of T. was read at the grave.

A fashionable wedding that has been on the tapis for some time eventuated on Tuesday morning, the contracting parties being Mr. John Fleming, eldest son of Dr. Fleming and Miss Matheson, sister of Mr. W. A. Matheson, barrister, this city. After the event the young couple took the N. P. train for an extended visit to the east. Mr. Fleming, though not born in the city spent half his lifetime here, and is highly respected, while the bride has, during her residence in the city, been deservedly one of the most popular young ladies of the place. Their many friends and acquaintances wish the young couple a long and happy wedded life.

IT IS THE BEST.

DEAR SIR,—I have used your B.B.B. for the past five or six years and I find it the best cure for our stomach and biliousness. I have also used Burdock Pills and can recommend them highly. ALBERTA FOSTER, Hamilton, Ont.
